INSTALLATION IS EFFORTLESS AND COSTS YOU NOTHING

- 1 install a small antenna on the roof
(about the size of a dinner plate)

- 2 connect to existing wiring in your building

- 3 enjoy the fastest internet available

Unlike other internet service providers, we don't dig up your streets and install wires in order to bring you internet. That saves everyone time and, most importantly, money.

WAVELENGTH IS MORE THAN JUST BETTER INTERNET.

It's a high-end amenity your residents will love.

Wavelength co-exists with current provider options, or bundle service with rent for discounted whole-building pricing (tenants can still upgrade to faster speeds at their own expense).

50X FASTER THAN CABLE

Not only do we upgrade your property at no cost or inconvenience to you, we'll future-proof your property for years to come. Better internet options ultimately help drive up occupancy and net income.
